

HamedRodriguez  
architects

Hamed Rodriguez Architects INC. is an accomplished architecture firm serving the needs of a diverse client base in the US and abroad. Our firm has built tremendous expertise in both commercial and residential architectural work and interior design, land planning, sustainable consulting, building analysis reports and energy cost reduction strategies.

(HRA) firm is distinguished by the unique ability to translate all relevant information and requirements from the client and its consultants in a timely and integrated fashion from project design to construction documents and administration.

Hamed Rodriguez Architects INC. (HRA) offer clients solutions from concept into technical quality. Committed to deliver outstanding professional services complying with building codes, government regulations and design quality. Believing in partnering supportive relationships with each client, and fully understanding their needs.

#### DESIGN PHILOSOPHY

(HRA) maintain a tightly knit working methodology and design philosophy by focusing and assuring substantial and consistent participation in all projects. This method allows for thoughtful discussions and critiques among the project designers that allow for the realization of the best design solution possible. The motivation force for setting a design direction draws upon the characteristics that make each client and each project unique. At HRA form and function unite to create architecture of memorable and lasting images...architecture that enriches people's lives and contributes to its unique environment...architecture that exceeds our client's strategic goals and vision.
